The Smart Choice for Enterprise Software

Centralized Cashiering

CityShare® is a complete platform of easy to use suites and applications designed specifically for Local Government's unique budgeting, operating and financial requirements. Our intuitive enterprise level software is modular and fully integrated allowing users to start with a basic system while affording the flexibility to add scalable functionality and features as needs expand and grow more complex. **CityShare®** is developed using industry standard client server and web enabled architecture combined with enhanced collaboration tool sets that will satisfy your needs now and in the future. We know you need to do more with less – fewer resources - fewer keystrokes –faster results. This is why our products are designed to be the Smart Choice for Enterprise Software!

The **CityShare®** Centralized Cashiering Application is a complete and fully integrated solution that provides payment collection and reporting tools for all billings and fees generated by the municipal entity. The application can handle cash, checks, credit cards, lockboxes and electronic transfers. It supports bar code scanners and receipt printers and can be deployed with a full POS cashiering station for front counter placement or in a self-service kiosk. The cashiering application integrates automatically with all other Suites in the **CityShare®** Platform to apply payments reliably and accurately. The number of cashiers and cashier locations is unlimited. Security is maintained through unique user login credentials with tightly controlled access to financial transactions. Multiple bill types and revenue categories may be set up for multi-jurisdictional collections. All applications utilize a consolidated database with a secure user login with access control, departmental reporting and electronic signoffs. The application provides workflow controls to send notifications or emails to other users based on predefined workflow events. The application provides everything you need to deliver a more effective governmental accounting solution.

Other Suites in the CityShare® Enterprise Solution

Financial Management is a complete and fully integrated multi fund accounting system for local government entities.

Land Management is a single tool for land use control and planning designed to manage all application, permit and violation documents featuring a centralized parcel database.

Employee Management provides all required functions of a complex Public Sector Payroll & Human Resources with integrated G/L & optional position control.

Revenue Management is a municipal billing and collection solution designed for local government utility operations that expedites bill processing, cash collection and control.

Government Management provides the ability to distribute key features of accounting control with departmental security through the organization in a controlled manner.

Features & Benefits:

- An Enterprise Level Software package designed to support the rigorous demands of a Digital Government Platform – where you are today – and where you're headed in the future.
- Regional and state specific applications
- Easy to use customer bill look up tools
- User defined set up tables make customization easy to accomplish
- Simplifies payment processing
- Significantly reduces work effort and key strokes while improving accuracy
- **Let's Talk** – we have a well thought out list of features and benefits – you'll be impressed!

Application Description:

- **Cashiering**
  - Collects invoices as part of an overall centralized cashiering function.
  - Includes a complete and flexible fee system which quickly computes charges that can be invoiced and billed or paid directly via cash, check, direct account debit, or credit card.
  - Charges created by other applications or for miscellaneous fees such as trash containers, traffic tickets, permits and service requests are immediately available to centralized cashiering for collection. Once collected the invoice or fee status is updated in the related Platform Suite.
  - Supports POS station with bar code, receipt printer and cash drawer.
  - Security strictly maintained by Platform credentials and additional individual cashier login requirements.
  - Automatically distributes payments to the initiating Suite.
  - Saves an enormous amount of time in the receipting process.
  - Deploys quickly and easily to any **CityShare®** installation.

  Let's Talk – we have a well thought out list of features and benefits – you'll be impressed!
