Revenue Management

CityShare® is a complete platform of easy to use suites and applications designed specifically for Local Government's unique budgeting, operating and financial requirements. Our intuitive enterprise level software is modular and fully integrated allowing users to start with a basic system while affording the flexibility to add scalable functionality and features as needs expand and grow more complex. **CityShare®** is developed using industry standard client server and web enabled architecture combined with enhanced collaboration tool sets that will satisfy your needs now and in the future. We know you need to do more with less – fewer resources - fewer keystrokes –faster results. This is why our products are designed to be the Smart Choice for Enterprise Software!

The **CityShare® Revenue Management** suite is a complete and fully integrated billing and collection solution designed specifically for local government entities. The suite enables faster and more accurate bill processing, streamlines cash collection and improves service levels for residents. It has comprehensive functionality that automates tasks to speed your processing, improve revenue collections and provide a real value in total cost of ownership. All applications utilize a consolidated database with a secure user login with access control, departmental reporting and electronic signoffs. The applications provide workflow controls to send notifications or emails to users based on predefined workflow events. Together the applications provide everything you need to deliver a more effective governmental accounting solution.

Other Suites in the CityShare® Enterprise Solution

Financial Management is a complete and fully integrated multi fund accounting system for local government entities.

Land Management is a single tool for land use control and planning designed to manage all application, permit and violation documents featuring a centralized parcel database.

Employee Management provides all required functions of a complex Public Sector Payroll & Human Resources with integrated G/L & optional position control.

Tax Management is a comprehensive, modular billing solution for municipal governments that provides collection and reporting tools to automate your tax billing requirements.
