

ENTERPRISE SUPPORT SERVICES PROGRAM

Freedom Systems offers this affordable and customizable program for customers wishing to maximize the return on their investment in Freedom's Enterprise Software System!

This enhanced support plan consists of ***regularly scheduled onsite visits*** by our best support personnel for:

- **Individualized Problem Solving**
- **One-On-One Training** on advanced features
- **Program Customizations** to satisfy your particular needs

Through the program's ***personal interaction***, you could learn how to:

- **Build custom user reports!**
- **Produce charts and graphs!**
- **Track programs and projects!**
- **Implement ACH processing!**
- **Even write queries!**

And there's even more! We make sure you have the latest versions of all your purchased Freedom programs. During each visit we'll load new program updates, before they're available to everyone else! And as a member of this unique program, you'll have input on recommended program updates!

Everything is getting more complex for municipalities these days. Demand for your time is increasing, reporting requirements are increasing while at the same resources are decreasing. You are constantly expected to do more with less. The Enterprise Support Services Program addresses this by showing you ***how to get the most of your system*** and ***maximize the return on your investment!***

Enterprise Support Services is affordable and easily configured to meet your needs! Discounted hourly rates apply, we accommodate your schedule and there is no long term contract to sign!

Each and every Enterprise Support customer tells us that this special program pays for itself over and over again. They consider it valuable and a value since the benefits of the program far outweigh the cost.
